<http://linkedin.com/in/queen-samuell> 

A motivated frontend developer seeking an opportunity to apply my skills in building dynamic, user-friendly web applications. With a passion for software development, I am eager to contribute to a collaborative team while continuously enhancing my expertise in crafting scalable and responsive user interfaces.

Skills

- Programming Language: Javascript
- Frontend Technologies/Frameworks: HTML, CSS, React, Tailwind CSS
- Database Management: Mongo DB
- Version Control: Git/GitHub

Experience

React Developer Intern / NXG HUB

- Developed and maintained interactive, responsive user interfaces, improving the overall user experiences
- Integrated APIs to fetch and display dynamic content, ensuring efficient data handling and user interaction.
- Collaborated with a cross-functional team to design and implement features for web applications.
- Documented project workflows and contributed to knowledge sharing within the team

Education

MAY, 2024

Software Development / Women Techsters, Cohort 3.4

- Hosted by Tech4Dev, providing a dynamic learning environment and access to industry expert
- Developed proficiency in frontend technologies including HTML, CSS and Javascript.
- Collaborated on team projects, demonstrating strong communication and teamwork skills.

Projects

Meal Search Application

Technologies Used: HTML, CSS, Javascript, Bootstrap

Developed a dynamic web application that allows users to search for meal recipes and get random meal suggestions using TheMealDB API.

- Developed a web application to search for meal recipes and get random meal suggestions.
- Integrated TheMealDB API for fetching and displaying meal data.
- Designed a responsive UI using Bootstrap for a seamless user experience across devices.
- Enhanced user interaction with real-time data fetching and display of meal details.

Software Development Website

Technologies Used: React, Javascript, TailwindCSS

Developed a modern, responsive website for a software development company using React. The website includes a home page, workflow section, pricing section, testimonials to showcase the company's work and attract clients.

- Designed and implemented the UI using custom and reusable React components.
- Integrated interactive elements for better user experience.
- Deployed and configured the website on Vercel for fast performance and easy access
